

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

PRELIMINARY LIST OF BOOKS IN LETTER

A

The formation of the Library, a portion of which is here catalogued, was only commenced in 1879, to replace a collection destroyed by fire in the beginning of that year.

In a Library so recently collected there will be many deficiencies, the Librarian will be glad to have these pointed out.

It should, however, be remembered that the Library is to be of a general character, that the funds available for its formation are limited, and that too great an expenditure on any particular class of books would be an injury to the Library as a whole.

Yet it is hoped that it may be possible in time to obtain for the Library the principal standard works in each department of Literature, Science, and Art.

The Catalogue is issued in parts:—

That the public may the sooner know what is in the Library.

Because this will enable many more persons to buy the Catalogue than if it were issued as a whole.

The part now issued represents nearly ten thousand volumes, and deals with such subjects of interest as Africa (185 vols.); Agriculture (332 vols.); America (1,570 vols.); Archæology (291 vols.); Architecture (593 vols.); Art, Arts, and Artists (2,187 vols.); Astronomy (195 vols.); Australia (434 vols.)

Suggestions or gifts of books may be sent to the Free Libraries Committee

Readers giving a false name and address will be held responsible for the consequences.

Readers cannot obtain more than one Work on the same Ticket.

It is expressly forbidden to take out of the Reading Room any Book, Map, Manuscript, or other article belonging to the Library, or to write or make any marks upon the same.

Readers desirous of proposing Books for addition to the Library, or of making any suggestion as to its management, may do so by writing the same in a Suggestion Book, which is regularly submitted to the Committee for consideration.

No person will be admitted to the Library who is intoxicated or in a dirty condition; nor will any conversation be permitted in the room; nor will any person be allowed to partake of refreshments therein.

No person is allowed to pass within the enclosure, except by special permission of the Librarian.

Persons under fourteen years of age are not admitted to the Reference Library, except for special purposes, to be determined by the Librarian.

The costly Illustrated Works are issued only on written application to the Committee.

Newspapers having been cut, and Illustrated Works disfigured, these are in future to be used on the Tables near the desk. Copying is permitted, but not tracing, as this has resulted in damage to the Illustrations. Readers are particularly requested not to soil or injure the Illustrations by fingering, or laying their hands on them.

The use of Ink for copying extracts, etc., is not permitted, as serious injury to Plates and Books has resulted therefrom.

LIST OF BOOKS IN LETTER

B

The formation of the Library, a portion of which is here catalogued, was only commenced in 1879, to replace a collection destroyed by fire in the beginning of that year.

In a Library so recently collected there will be many deficiencies, the Librarian will be glad to have these pointed out.

It should, however, be remembered that the Library is to be of a general character, that the funds available for its formation are limited, and that too great an expenditure on any particular class of books would be an injury to the Library as a whole.

Yet it is hoped it may be possible in time to obtain for the Library the principal standard works in each department of Literature, Science, and Art.

The Catalogue is issued in parts :

That the public may sooner know what is in the Library.

Because this will enable many more persons to buy the Catalogue than if it were issued as a whole.

The part now issued represents nearly twenty thousand books and pamphlets, and deals with such subjects of interest as Bibliography (4,000), Birmingham (6,000), Botany (1,500), British Museum (420), Byron (300).

Suggestions or gifts of books may be sent to the Free Libraries Committee

Readers giving a false name and address will be held responsible for the consequences.

Readers cannot obtain more than one Work on the same Ticket.

It is expressly forbidden to take out of the Reading Room, any Book, Map, Manuscript, or other article belonging to the Library, or to write or make any marks upon the same.

Readers desirous of proposing Books for addition to the Library, or of making any suggestion as to its management, may do so by writing the same in a Suggestion Book, which is regularly submitted to the Committee for consideration.

No person will be admitted to the Library who is intoxicated or in a dirty condition; nor will any conversation be permitted in the room; nor will any person be allowed to partake of refreshments therein.

No person is allowed to pass within the enclosure, except by special permission of the Librarian.

Persons under fourteen years of age are not admitted to the Reference Library, except for special purposes, to be determined by the Librarian.

The costly Illustrated Works are issued only on written application to the Committee.

Newspapers having been cut, and Illustrated Works disfigured, these are in future to be used on the large Tables near the desk. Copying is permitted, but not tracing, as this has resulted in damage to the Illustrations. Readers are particularly requested not to soil or injure the Illustrations by fingering, or laying their hands on them.

The use of Ink is not permitted, as serious injury to Plates and Books has resulted therefrom.

LIST OF BOOKS IN LETTER

C

The formation of the Library, a portion of which is here catalogued, was only commenced in 1879, to replace a collection destroyed by fire in the beginning of that year.

In a Library so recently collected there will be many deficiencies, the Librarian will be glad to have these pointed out.

It should, however, be remembered that the Library is to be of a general character, that the funds available for its formation are limited, and that too great an expenditure on any particular class of books would be an injury to the Library as a whole.

Yet it is hoped it may be possible in time to obtain for the Library the principal standard works in each department of Literature, Science, and Art.

The Catalogue is issued in parts :

That the public may sooner know what is in the Library.

Because this will enable many more persons to buy the Catalogue than if it were issued as a whole.

The part now issued represents over nine thousand books and pamphlets, and includes Cambridge (130), Camden Society (140), Canada (120), Ceramics (70), Cervantes (360), Chaucer (110), Chemistry (790), Chetham Society (110), Christ, Christianity and Church (380), Clark's Foreign Theological Library (170), Classics (620), Cobbett (170), Coins (90), Collier (110), Costume (50), Coventry (100), Cromwell (70).

Suggestions or gifts of books may be sent to the Free Libraries Committee

Readers giving a false name and address will be held responsible for the consequences.

Readers cannot obtain more than one Work on the same Ticket.

It is expressly forbidden to take out of the Reading Room, any Book, Map, Manuscript, or other article belonging to the Library, or to write or make any marks upon the same.

Readers desirous of proposing Books for addition to the Library, or of making any suggestion as to its management, may do so by writing the same in a Suggestion Book, which is regularly submitted to the Committee for consideration.

No person will be admitted to the Library who is intoxicated or in a dirty condition; nor will any conversation be permitted in the room; nor will any person be allowed to partake of refreshments therein.

No person is allowed to pass within the enclosure, except by special permission of the Librarian.

Persons under fourteen years of age are not admitted to the Reference Library, except for special purposes, to be determined by the Librarian.

The costly Illustrated Works are issued only on written application to the Committee.

Newspapers having been cut, and Illustrated Works disfigured, these are in future to be used on the large Tables near the desk. Copying is permitted, but not tracing, as this has resulted in damage to the Illustrations. Readers are particularly requested not to soil or injure the Illustrations by fingering, or laying their hands on them.

The use of Ink is not permitted, as serious injury to Plates and Books has resulted therefrom.

LIST OF BOOKS IN LETTERS

D AND E

The formation of the Library, a portion of which is here catalogued, was only commenced in 1879, to replace a collection destroyed by fire in the beginning of that year.

In a Library so recently collected there will be many deficiencies, the Librarian will be glad to have these pointed out.

It should, however, be remembered that the Library is to be of a general character, that the funds available for its formation are limited, and that too great an expenditure on any particular class of books would be an injury to the Library as a whole.

Yet it is hoped it may be possible in time to obtain for the Library the principal standard works in each department of Literature, Science, and Art.

The Catalogue is issued in parts:

That the public may sooner know what is in the Library.

Because this will enable many more persons to buy the Catalogue than if it were issued as a whole.

The part now issued represents over ten thousand (D 4,500, E 6,000) books and pamphlets, and deals with such subjects of interest as Dialects (100), Dictionaries (360), Drama (1,450), Early English Text Society (120), East (70), Ecclesiastical (100), Education (300), Egypt (180), Electricity (160), Encyclopædia (160), Engineering (660), England (1,650), Epistles (60), Europe (130), Exhibitions (230).

Suggestions or gifts of books may be sent to the Free Libraries Committee

No person will be admitted to the Library who is intoxicated or in a dirty condition; nor will any conversation be permitted in the room; nor will any person be allowed to partake of refreshments therein.

The costly Illustrated Works are issued only on written application to the Committee.

Newspapers having been cut, and Illustrated Works disfigured, these are in future to be used on the large Tables near the desk.
